General Store, Planet Organic & major grocery,
department or drug stores.**

Try making your own Cleaners!
Basic household products can be combined to
create very effective, phosphate free options

Gentle Giant Scrub

(good for counters, sink, tub or shower)

- 1/2 cup baking soda
- Small amount of phosphate free liquid soap
- 5 to 10 drops of essential oil such as Tea Tree

Place baking soda in a bowl and slowly pour in liquid soap, stirring until the cleaner has a frosting-like consistency. Add essential oil last. To use, scoop the creamy mixture onto a sponge and wash the surface well before rinsing. Makes 1/2 cup.

Wonderful Window Wash

- 1/4 cup white distilled vinegar
- 1/2 teaspoon phosphate free liquid soap
 - 2 cups water
- A few drops of essential oil such as Lemon

Combine the ingredients in a spray bottle and shake to blend. Spray on surface, then remove with a clean cloth or old newspapers. Makes 2 1/4 cups.

Toilet Bowl Tidier

- 1/4 cup white distilled vinegar
 - 2 cups water

Combine the ingredients in a spray bottle, shake and spray along the inside rim of the toilet. Leave on for 15 minutes and then scrub with a toilet brush. Makes 2 1/4 cups.

Terrific Tap Cleaner

- white distilled vinegar

Simply pour white vinegar on a cloth and wrap around taps or areas where you have buildup. After 10-15 minutes, remove cloth and rinse—your buildup will be gone!
