

9. Fisheries Management Update – Don Meredith

Don Meredith indicated that the Alberta Government policy regarding fisheries is to protect fish. They are not concerned about the anglers' desire to keep some fish. The Angler's group intends to continue to press the government to continue funding the science and monitoring of fisheries. They are also trying to get more information from the Government on the status of each major fishery.

10. Board Meetings in January to March, 2017.

The executive will continue to meet at least monthly until April, and will schedule general meetings if they deem them necessary.

11. Adjournment: 9:30 PM
